(**Due:** Syllabus Quiz: Jan. 08; Material Quiz: Jan. 13; Material Quiz: Jan. 20)

## 1 OVERVIEW

You will have a total of 3 announced quizzes during the semester; one syllabus quiz and two quizzes that assess material covered in the class. You will take the quizzes on Blackboard, where they can be located under the **Assignments** tab in the **Quizzes** folder. You will only have one opportunity to take each quiz, and will only have 15 minutes (non-stop) to take each assessment. If you close out of the web browser, you cannot retake the quiz. The same goes for the 15 minutes: When the 15 minutes are up, you're done taking the quiz, even if you don't finish. That said, you are expected to devote your full 15 minutes or less to the quiz, only the quiz, and nothing but the quiz.

You will have a 24 hour period to take each quiz. No excuses will be accepted for missing a quiz; they are known in advance and you have a large window to take the assessment. Each quiz will have a total of 5 questions, worth 10 points each, thereby making each quiz worth 50 final grade points. All 3 quizzes add up to 150 final grade points.
